EXPERIENCE

- **Machine Learning Intern** Remote
CodeSoft 06/2025 - 07/2025
 - I have already done a project in my previous machine learning internship, and I modified it in this this internship
- **Project Intern** Remote
Placify Technologies 09/2024 - 11/2024
 - In this internship I have developed a free image compressor website using machine learning LLM.
- **Summer Trainee** Remote
Cipher Schools 06/2024 - 08/2024
 - In this internship, I have learned Java and dsa and made a project on binary search tree.

PROJECTS

- **Online Rental Property Website** 09/2022 - 12/2022
Github
 - Developed a full-stack rental platform using React for the responsive user interface and Node.js/Express to build a secure RESTful API. Managed all property listings, user accounts, and bookings in a MongoDB (or SQL) database and integrated the Google Maps API for location display.
- **Foodofest-Frontend-Food-Delivery-Website-master** 02/2025 - Present
Github
 - Still I'm working in this project; I've developed only frontend part. I have design the backend with payment gateways

EDUCATION

- **Lovely Professional University** Jalandhar
B.Tech - Computer Science And Engineering - 6.47 CGPA 2022 - 2026
- **SV Defence Academy** Tirupati
Higher Secondary - MPC - 60.9 % 2020 - 2022
- **Sri Padmavathi High School** Tirupati
High School - SSC - 99.83 % 2019 - 2020

SKILLS SUMMARY

- **Languages** Python, C++, Javascript, HTML, CSS
- **Frameworks** React Js, Node Js
- **Databases** MySQL, Mongo DB
- **Tools** VSCode, Figma, Canva

CERTIFICATIONS

- **Programming in C++: A Hands-on Introduction** - Coursera
- **Build an App in Android Studio using Resources** - Coursera

ACHIEVEMENTS

- Excited to share that I'm now a member of the AWS Emerging Talent Community! This opportunity opens doors to learning, collaboration, and growth with one of the world's leading cloud platforms. Looking forward to expanding my AWS knowledge, building solutions, and connecting with talented professionals across the globe.
